
PRINTMAKERS ARTIST RESIDENCY

DEVFTO Printmaking Institute is an open studio that offers commissions, editioning, paper and printmaking research, workshops, exhibitions and artist-in-residency programs.

Our Artist-in-Residence programmes are designed to provide a creative and supportive environment in which artists may immerse themselves while creating new work and expanding their own understanding of their medium and printing technique. DEVFTO offers its space consisting of a fully equipped print studio. Experienced printmakers are expected to work independently, but those interested in advancing their skills or in learning new techniques as well as those new to printmaking can make arrangements according to their needs. The resident artist is expected to have a clear concept regarding the project they wish to work on during the residency. The workshop and studio facilities will be shared with the Devfto team. The studio's working hours are 10am - 5pm, every Tuesday to Sunday. A full studio introduction is provided at the beginning of the residency.

During the residency, DEVFTO will document the work and working process of the resident and offer promotional assistance through its social media platform, also connecting the resident to the local Bali art scene.

Accommodation is not provided but we are happy to help you find local accommodation during the residency period.

We are located on the main road of Sanggingan, Ubud, Bali, with easy access to the area. After the working hours in the studio, you can immerse yourself in the vibrant cultural life, art galleries and museum, natural landscape, and local and international cuisine in Ubud, Bali.

RESIDENCY INFORMATION

FEES & SUPPORT

We accept one to two residents each month with a duration of one week to a month. The residency fee is **IDR 2.750.000/week** giving you access to our well-equipped studio for relief, intaglio, lithography, alternative photography process, and screen printing. Additionally, you will be charged for printing materials used such as printing plates, film, emulsion, paper and so on. If you need assistance from our **Master Printer**, there will be an additional cost of **IDR 1.500.000/week**.

Artists are expected to secure their own funding. DEVFTO is happy to assist artists seeking grants by providing a letter of invitation.
